

Friday, 17th August 2018

## Kia ora tātou

Congratulations to the Mrs. Myhre and the members of the Concert Band who won a gold award in the recent KBB festival. Only 5 other schools across Auckland also gained a gold award, an outstanding achievement. Congratulations to everyone for their commitment and hard work to achieve this.

Thank you to the parents and students who are participating in the Board of Trustee's community consultation discussion groups. These are happening next week and will form the basis of an online survey that will go out to our whole community later this term.

This week in assembly I spoke about study habits for exams. Our seniors sit their school exams in weeks 8 and 9 (next week is week 5) of this term. These exams are important for several reasons:

- **Insurance**  
Students' results in these exams will be used to calculate 'derived grades' for students who may miss a NCEA exam due to illness or other reason in term 4.
- **Feedback**  
These exams let you, your child and his/her teacher know how well they are progressing in their externals.
- **Revision**  
These exams get students studying now for their final exams in term 4. Research shows that early revision is more effective than last minute cramming, so studying now sets our students up for success in term 4.

Our students value success and routinely work hard to succeed academically. They are also learning about how they study best and are able to try different ways of preparing for external exams. Hence we focus this term on guiding students to prepare effectively for their exams, and maintain their wellbeing through the process.

Effective study involves knowing:

- **WHAT TO STUDY**

Check that your child ...

knows which external standards he will be assessed on in the school exams, and what the content of these standards is.

has prioritised which subjects or standards need the most attention (study time).

- **HOW TO STUDY**

Check that your child ...

knows how questions will be asked in each standard. Each subject has a different approach. Get him/her to check with his/her teacher, or download past exam papers from the NZQA website.

## Upcoming Events:

### September

- 6 Parents Association Meeting (7pm-9pm, Staffroom)
- 11 Whanau BBQ (6:30pm-8:30pm, Staffroom)
- 19 Board of Trustees Meeting (6pm-9pm, Boardroom)
- 23 Fun Run/Walk (9:45am-1pm)
- 23-25 Duke of Edinburgh Gold Practice Journey (All Day)
- 25 Dance Night (6:30pm-8:30pm, Hall)
- 27 Arts Awards (7pm-10pm, Hall)
- 28 Media Award Ceremony (6pm-9pm, Hall)
- 28 End of Term 3

(For a full list of upcoming events, please see the calendar on the college website.)

knows how he/she studies best. Does he/she like to talk about his learning with others? Does he/she prefer to study quietly in his room? Does he/she like to draw mind-maps to remember ideas and concepts. Each student is different.

has all of his/her notes that he/she needs to study from, and has them all in the same place (e.g. folder) and easy to access.

- **WHO TO STUDY WITH**

Some students like to study alone, others prefer to be with friends. Many students like to arrange to meet at the school or local (e.g. St Heliers, Glen Innes) library.

This is also a time when social media can be a great resource. Students can message or face time each other to work together.

I also encourage students to use you, their parents, as a resource. If they find it easy to avoid study, they can use you as a 'human alarm clock' to remind (nag) them that it is study time - if that helps.

- **WHERE AND WHEN TO STUDY**

Study is about routine. Make sure that your child has somewhere where he/she can set up and leave his/her revision notes and practice exams to work on. This might be in his/her room, or your lounge, or alternatively he/she may prefer to go to a library to study.

Get your child to identify the time of day that he/she studies best, and then make a plan to routinely study at this time. Smaller time periods, e.g. 1 hour, are more effective than setting aside large chunks of time such as 3-4 hours, for revision.

As we move towards senior exams (junior exams occur late in term 4), it is also important for students to schedule downtime ... time to relax through sports, time with friends, reading a book or watching Netflix.

Ngā mihi nui,  
**Richard Dykes**  
Principal

## **NZQA Fees**

---

Please note that today (Friday, 17 August 2018) is the internal deadline for the payment of NZQA Qualifications fees. Thank you to all the candidates and their caregivers who have already paid.

For those who may have missed this deadline, we have a small window up until Friday, 24 August 2018 for you to pay, while we collate the fees for payment to NZQA.

There are various ways that you can pay:

- At the Accounts Office at the College: cash, cheques (made out to Glendowie College, not NZQA), EFTPOS and credit card payments accepted.
- Internet banking into the school's bank account **12-3027-0364377-00** giving the following details:  
Particulars: Student Name or Student ID  
Code: Student form class  
Reference: NZQA
- On-line payment through the Portal

**Mr Praveen Chand, Deputy Principal**

## Enrolments for 2019

---

In-zone enrolments close next Friday, 24 August 2018. If you have a year 9 enrolling for 2019, or know another family doing so, we would appreciate you getting the enrolment forms in by next Friday.

To enrolment dates are:

- In Zone applications – Friday, 24 August 2018.
- Out of Zone applications – Wednesday, 5 September 2018.

## Changes to Senior Uniform for 2019

---

The college underwent an extensive consultation process and survey with its students to determine whether any changes to the Year 13 uniform was desired. The majority of students chose to retain the current uniform with only one change - a new, separate year 13 white shirt and blouse.

The current girls' white blouse has been modernised with a new cut, long sleeves, embroidered thistle and navy trim inside the collar. Year 13 boys will have a new white shirt as part of their uniform. It will also be long sleeved, with embroidered thistle and navy trim. It can be worn either open necked or with a tie as part of the dress uniform.

The new uniform requirements will be available and compulsory for all year 13 students only. Examples of the shirt and blouse are shown below.

Girls Year 13

Boys Year 13

**Mr Gordon Robertson, Deputy Principal**

## 2019 Timetable

---

All students have now submitted their course selections for 2019 and we have now started to construct the timetable for next year. I have summarised the process for your information.

1. At the end of term 2 and start term 3, students select their preferred courses for 2019.
2. In term 3, the college decides which courses will run and starts to construct a timetable within the constraints of available staffing and resourcing (e.g. room availability).
3. Construction of the timetable is iterated 3-4 times through terms 3 and 4 as we balance students' wishes and available resources.
4. In January, year 12 and 13 students come into school before the start of the year to confirm their courses, based on their NCEA results. This may require some changes to the timetable to accommodate students who no longer meet the prerequisites to take a course.
5. The timetable is finalised as quickly as possible, ideally by the first week of school.

A key tenet of our approach to timetabling is student choice. Rather than starting with a rigid set of courses that students must choose from, we allow students to state their preferences and then try to accommodate as many of these as possible.

Thankfully in a school of our size, we are able to accommodate the majority of student choices. The Board also contributes by funding approximately six extra staff (beyond the number of teachers funded by the Ministry) to run smaller classes and more courses.

Unfortunately, there will be some clashes through the process and we deal with these on a case by case basis, talking with students and their parents/caregivers. Our experience is that this approach results in more students doing the courses they want, rather than pre-determining the timetable before students select courses.

If you have any questions about the process, please contact your child's Dean, Assistant Dean, or me.

***Mr Praveen Chand, Deputy Principal***

## Making Payments through the Parent and Student Portal

---

Just a reminder that it is now possible to pay school charges (with credit card or internet banking) through this [Portal](#) using the username and password information which was emailed to you on 3 August 2018.

Through the payments facility, you can advise us of the specific charges you wish to pay without having to make multiple separate payments to our bank account. Full instructions are available [here](#).

If you have any account or payment queries, please contact Mrs Bernadette Hyde on 09 575 9128 ext 117 or email [hyd@gdc.school.nz](mailto:hyd@gdc.school.nz)

Please email [reception@gdc.school.nz](mailto:reception@gdc.school.nz) if you require a reminder of your username and password.

***Ms Lisa Davis-Miller, Business Manager***

## **Middle Years Programme (MYP) in Science**

---

The Science department have been working to shift the focus of our junior Science courses towards more meaningful and contextual learning and assessments. For example, earlier in the year our year 10 students were assessed in the 'Drug Bust' unit in two ways – a practical section and a theoretical section. The practical section involved each student being given two random white powders, they had to identify the 'drugs' using the skills and knowledge learnt during the unit. Students had to justify why their identification was correct by writing a short report in the theoretical section of the assessment.

Currently, our year 9 students are in the midst of our 'Mission to Mars' unit, where groups of students identify an inquiry question based on the statement: 'NASA plans to have humans living on Mars by 2030'. Each group will research their question and create a presentation, as well as a creative product which we hope to show to the community during our first ever Science evening (date to be confirmed)!

By including a range of assessments in our curriculum, we can assess more than just fact-remembering skills. We can assess and help students develop critical thinking, problem solving, research capabilities and presentation techniques, to name a few.

***Ms Aileen Jan, Science Faculty***

## **KBB FESTIVAL**

---

Last week, hundreds of musical groups descended on Holy Trinity Cathedral in Parnell for the KBB Secondary Schools Music Festival.

Our String Orchestra, conducted by Mrs Joanne Johnston, performed very tidily with a high degree of musicianship, for which they were given a mentoring award for 2019. On Thursday evening, the Big Band, directed by Mr Callum Passells, and joined by vocalist Bella Bavin, lit up St Mary's with some exciting music.

## Gold Award for Concert Band

---

We are extremely proud of our Concert Band for their wonderful performance at KBB last week. Our preparation was not without its challenges in the preceding weeks, with a broken ankle which required surgery, a sprained ankle, broken finger and, sadly, a bad case of tonsillitis which prevented a very important percussionist attending the big event.

However, we adjusted our percussion plan on the day, and played with confidence, accuracy, and a high degree of musicianship.

Deanna Louis, the band leader, enhanced our second piece with her beautiful piano playing in “The Seal Lullaby”, a huge contrast to our percussive, ever changing rhythmic opening number “Spitfire”, which was inspired by the fighter planes of World War II. The high standard set at the beginning of our performance was maintained throughout causing the adjudicators to comment on ‘moments of delicious balance and sensitivity’ and the students ‘dedication to their craft, of which they could be very proud’.

Over 40 Auckland Concert Bands participated, and we were 1 of 6 who attained Gold. Well done to all involved.

## Honours Orchestra

---

A highlight of the week was the rehearsal and performance of “Also Sprach Zarathustra”, and the final movement of “Saint Saens” Organ Symphony, by over 100 hundred players selected from a large number of secondary schools, who had only 3 hours together with their conductor, Michael Joel, to make this music ready for performance. What a wonderful experience! Congratulations to Callum Collier (French Horn), Mayna Tse (Trumpet) and Damon Herlihy-O’Brien (Cello) on their selection and brilliant playing.

## Parents' Association Update

---

The Glendowie Parents Association Fundraising team, have been rather busy.  
Let's check in to see what they have been up to.

## Quad Redevelopment Planting Day is nearly here (Sunday, 26 August 2018 – 9am onwards)

A huge thanks to those who have already signed up to help. We have planting plans for the 7 planting areas and a load of small plants that need planting. The soil is prepared and ready to dig. You simply need a pair of gloves and small trowel.

Planting starts at 9am, please just pop in if you can give only a few hours, the more hands the quicker we will get the job done. We will have a BBQ there to feed our hunger workers.

Sign up here – [Planting Day Sign Up](#)

## Fun Run / Walk (Sunday, 23 September 2018 – 9:45am start)

### HELP NEEDED

- Seeking volunteers on the day - to Marshall the race course, registration tent takers, serve at our Cafe.
- Days before - registration tent, baking for our cafe, handing out flyers and giving out posters to local schools and community groups.
- Sponsorship - if your business can sponsor a raffle item, or give a cash donation- please email us.

Either email us or volunteer at <https://www.trybooking.co.nz/227> and we will be in touch.

**See ya next time in the staffroom, next meeting is the Thursday 6 Sept!!!**

## Duke of Edinburgh – Gold Award Ceremony

After three and a half years of hard work, perseverance and a whole lot of blister tapes, a group of former Glendowie College students finally had the opportunity to receive our Gold Duke of Edinburgh awards at an official ceremony held at Kristin School.

Sir Peter Hillary and Lady Sarah Hillary presented the awards to former students Aldric Khoo, Aishah Mangnall, Lauren Calvert, Yimei Chuah, Jacqueline Cox, Veronika Hunter, Kiera Montgomery, Freda Song, Julia White and myself (Katrina Dickins) on the day.

It was a very exciting afternoon, being able to hear about others' experiences and where other schools had been for their tramps. All of us would agree that the journey to reach to this stage was not always as smooth-sailing as our smiles make it seem (I know I have eaten enough Kaweka Butter Chicken to last a lifetime!), but the memories and friends we have made along the way have made it all worthwhile.

A huge highlight for me personally was completing the Abel Tasman programme, with some of the most spectacular views I have ever seen alongside the beautiful wildlife, and I am so proud of us for making it to the end.

The Duke of Edinburgh programme is something I would recommend to everyone, whatever your fitness level, to really get you out of your comfort zone, to make some life-long friends and to explore our incredible country.

A huge thanks goes out to all the teachers, leaders and parents who have supported us and helped us along the way, especially Ms Barrack, Mr McKie and Miss Smith for getting us through our Gold final journey. We truly appreciate all the time and money you have given up to help us accomplish the award!

***Katrina Dickins (Former Student)***

## Climbing New Zealand Lead Championship

*Niamh Montgomery (12LIU)*

Extreme Edge Glen Eden recently hosted the third and final instalment of the Climbing New Zealand Lead Championship.

Well done to Niamh Montgomery (Year 12) who came 5th in Female Youth A and was placed 4th overall in the 2018 series.

Congratulations also goes to Lukas Blenkinsopp (Year 13) who came 5th in the Opens and was the 1st Junior male at this event. Lukas was also placed 2nd overall in the 2018 Lead Series. Well done to both Niamh and Lukas!

*Lukas Blenkinsopp (13CGN)*

***Miss Fiona Smith, Tangaroa House Dean***

## Animation College – Light and Dark Competition

Year 13 Painting student, Tamilla Muedinova, recently won first prize in the Animation College Light and Dark Competition. Tamilla designed a character that expresses both light and dark emotions. Her prize is a scholarship to Animation College in Auckland or Wellington, a tablet, and art vouchers.

Below are the comments from the judges about Tamilla’s work and her designed characters.

**Secondary School Character Competition**

f t g+ v+ w+ s+ WANT MORE INFO?

This year, we received over 300 entries and our panel of judges were impressed with the diversity of the entries, the composition of the images and the stories that the images conveyed.

This year's winner of Light and Dark 2018 is Tamilla Muedinova, Year 13 from Glendowie College (Glendowie, Auckland). The judges commented on Tamilla's use of texture, colours and style, as well as the attention to detail which made this entry the judge's favourite character animation technique. The judges really liked the narrative tie-in, even though they both worked really well as singular pieces. The two images together made the images all the more "not just beautifully executed expressions, but a wow factor with the story connection, giving extra life to the emotions".

*Mrs Helen Cooper, Head of Department Visual Arts*

## Geography Field Trips

Geographers in Year 11 and Year 13 have been out in the field recently collecting data for NCEA research internals. Getting out into the environments is a vital aspect of Geography to help students visualise and experience what is being taught in class.

### Year 11 Geography Beach Trip

For our research internal, we went to Takapuna beach, Okahu Bay and Mission Bay. We were investigating whether there was a pattern to the litter found at Auckland beaches.

At Takapuna, we lined up along a 30m stretch along the high tide mark, and began searching and digging for litter. The North Shore beach was relatively busy, with many dog walkers and tourists enjoying the landscape. We mainly found litter such as small pieces of plastic and plastic wrappers, but there were some interesting finds including socks.

Our second beach was Okahu Bay. When we dug under the surface of the sand, and rummaged through the sea-grass on the beach, we found a variety of litter - plastic, bottle caps and even rope from the boat moorings.

The last beach we visited was Mission Bay. We were expecting to find the most litter at Mission Bay due to all the shops, restaurants and take-out places along the bay, however a recent beach clean meant that we found less than expected. Our litter at Mission Bay was mostly consisted of small pieces of plastic and cigarette butts.

The day was an overall success with 7.2 kilograms of litter picked up by the 92 students. We all enjoyed the day in the sun and taking care of our local beaches. We collected useful data and added to our internals.

**Melissa Pangestu, Sophie Williams and Rachel Edwards (Year 11 Geography)**

### **Year 13 Geography Rotorua Trip**

On 29 July, the Year 13 Geography classes set off towards Rotorua to gather data for our internal assessment. We made it to Rotorua and went to the Agrodome first where we watched a sheep show. We then travelled to Velocity Valley where it was raining but the boys still showed bravery on the 12m high Swoop drop. Next was the Redwoods Treewalk, which we did in the dark, walking along the 30 metre high trees on swing bridges. To unwind from the long day, we headed to the Polynesian Pools to relax in the hot thermal pools, something that Rotorua is originally famous for.

The second day was an early start with a 6am wake up. We made our way towards the Wai-o-tapu Thermal Wonderland, where we collected most of our data as a lot of tourists were there to watch the Lady Knox Geyser erupt, reaching heights of 30 metres. Followed by this was the visit to the Rotorua Library where we had a talk from the Rotorua Museum education staff, and learnt about tourism development in Rotorua which is helpful for our external studies. Then we headed off to Rainbow Springs for a guided tour around the park. We were shown their rainbow trout and native birds, such as Jenny the Kea. We also had a go on the Big Splash Ride, some students even went more than once! For dinner, we were led by Chief William (William Heaps) to the Tamaki Tours cultural evening, where we saw demonstrations of Maori life and culture in the early years, enjoyed a Maori concert and a hangi dinner.

For our final day, we went to Skyline where we boarded the gondola to head up the mountain for our final chance to collect data. Some students decided to use this time to have multiple turns on the luge! After everyone was done lugging and had collected the last of their data, we got back on the bus and headed home.

We are all grateful to have had the opportunity to get outside of the classroom and get hands on with the tourist activities offered in Rotorua. The experience will really help support both our internal and external assessment work.

**Imogen Stythe (Year 13 Geography)**

## NIWA and Rotary Club of St Johns

On Thursday 2 August 2018, the leaders of the Glendowie College Interact Group (Jessica Nielsen, Alison Winstanley, Jade Azzopardi, Tayla Clark and Michaela Ivanier) had the privilege of attending a General Meeting of the Rotary Club of St Johns. The meeting covered the club's general notices and we were also fortunate to hear from their guest speaker, Matt Billington. At only 19 years of age, Matt is a successful entrepreneur. He won the Young

Enterprise Competition in 2017 with the success of his very own dairy free company, Olelei's. Matt's speech was very inspiring as he opened our eyes to all the hard work which is essential to be successful, not only in business but in our busy student lives too. During the evening, we also connected with the Auckland Rotaract Group. They are currently fundraising to build a library early next year for a school in Fiji, which was destroyed in cyclone Winston. The Glendowie College Interact Group are currently working to help support the Auckland Rotaract Group achieve this goal.

We are also in the process of developing an initiative to improve the water quality of our streams in the local area. We will be testing a stream in Glen Innes at the end of this term using a research kit made by NIWA. By regularly testing the stream each term, the Club will be able to identify what is needed to improve its water quality. This is a project which we intend to continue in the future to improve the sustainability of our local environment.

*Jessica Nielsen, Year 12 Student*

## EPro8 Challenge

The EPro8 Challenge is a competition, an engineering and problem solving race. Every year over 9000 students from 800 schools throughout New Zealand take part. Each team of four is based at a workstation containing an impressive assortment of easy to use parts and equipment. The 3-hour event begins with a tutorial on the equipment teams will be using. Teams compete in a variety of tasks such as building large sized structures, engineering using pulleys, motors, gears, wheels and axles, constructing electronic circuits and inventing machines that can complete simple tasks.

Below are the two teams from Glendowie College that participated in this year's competition held at Northcote College on 3 August 2018.

*Serge Carroll, Max Davies, Justin Chen, Charlie Peng*

*Kieran Smith, Miles Hunter, Lewis Azzopardi, Neal Grayson*

## Casting Call – Googlebox New Zealand – TV Programme

# GOGGLEBOX NEW ZEALAND

## CALLING GLENDOWIE COLLEGE FAMILIES ARE YOU PASSIONATE TV FANS?

Do you have strong and entertaining opinions about TV?  
Are you, your family or friends funny, sharp and have a lot to say?  
Do you want to be part of something special?

Gogglebox is a global television phenomenon, and films diverse households reviewing TV shows from the comfort of their own couch. It's a hugely entertaining series and the real magic of this show is in the talent cast.

We're looking to cast all types - from families with teenage kids through to older retired couples. You do not all have to live together in the same house to be considered.

This show is good fun and would suit those with great sense of humour, love TV and freely give their opinions.

Filming takes place in the second half of this year and you'll only be required twice a week over a period of time.

Those who are selected will be paid for their participation in the show.

If this is you, or someone you know fits the bill, please drop us a line.  
We'd love you to be part of this unique television experience!

For more information, please contact: Viktoria Fortune, Casting Coordinator  
Mob: 021 525 975 or Email: [yik@satellite.co.nz](mailto:yik@satellite.co.nz)

## SATELLITE

## Kick Start Her (GirlGuiding NZ)

# KICK START HER

A workshop series for young women aged 14-17

This series is all about providing the tools and knowledge around **leadership, financial literacy and career development** to equip girls to be better prepared young adults. We have partnered with some amazing people and organisations to bring these topics to life! In addition, each day will include an exciting DIY component where the girls will get to make some amazing things to take home.

**Sept. 15**

**Leadership:** Boundaries, self-care and the growth mindset workshop with **Alysha Bentley**

**Sept. 22**

**Career Development:** CV writing and interviewing skills with **Global CV Solutions**

**Sept. 29**

**Financial literacy:** 'What's next?' Everything you need to know about budgeting, Kiwisaver, accounts, taxes and your IRD number with **ASB Bank**

Each workshop runs from 1-4pm  
@ the Ellen Melville Centre

Workshop Cost: \$20

For more information or to register contact:  
ashlyn.baines@girlguidingnz.org.nz | 09 638 9076 Ext. 773
